

Thank you for ordering from Zip-Organizer. We started this business knowing that there was a better way to Organize kitchen baggies, so we created Zip-Organizer.

After completing 2021 with 6 months of ETSY sales, Our store is now a Top-Seller of Kitchen Baggie Organizers, while being consistently awarded ETSY's "Star Seller Badge" for Our Excellent Customer Experience.

### **Having just placed your order - make sure your Baggies Fit:**

**Standard Baggies or Plastic "Slider" Baggies?** – You may think that by purchasing a Baggie Organizer that all your bags will fit, but if you happen to love baggies with a Plastic "Slider" then you may be disappointed with most Organizers on the market.

This is due to most being designed around a standard Quart baggie measuring 7 inches along the zipper while a Plastic "Slider" baggie measures 8 inches.

**Zip-Organizer Gives you "Slider" Bag Solution** – Our Newest "Slider" Zip-Organizer required some significant design work, a slight reduction in the Sandwich, Snack and Gallon Baggie storage capacity and 6 additional parts, but we now have one of the few if not the only "Slider" baggie organizers on the market.

Still measuring the same 11 inches by 11 inches as our Standard Zip-Organizer, we now offer a "Slider" Zip-Organizer that has an extra area to fit your 8-inch "Slider" Quart Baggies (Left side) along with another area for your 7-inch Standard/Freezer Quart Baggies (Top). You still get ample room for Sandwich, Snack baggies along with a Gallon area that fits Standard, Freezer & Plastic "Slider" baggies. For those of you that will never use the standard quart Baggies or don't use Snack Bags, we can change labeling and can change slot opening configurations to a Rectangle for storing Baggie Clips & Ties.

(If you need the "Slider" Organizer – Just let us Know)

### **Extra Single Gallon or Half Gallon Storage**

For those wanting more baggie storage we have 3.5 inches of extra storage for your Gallon or Half-Gallon baggies. Together the two Organizers will fit in a drawer that is 11 inches by 14.5 inches and as always, we can build it to match your drawer depth (2.5", 2.75", 3" standard, 3.25" or 3.5").

(It will be available soon in our store but for now, just contact us if you want the extra storage now.)

**Next Page: For Baggie fit Instructions and more about Zip-Organizers....**

**What Baggies fit?** – While we don't recommend a specific brand of baggie, but we do have recommended sizing for an optimal fit.

**Note:** Baggies are inserted from the front as Our Organizers do not have a removable face or back. We also supply "Baggie Stuffing Instructions" in each organizer so you can achieve an efficient level of stuffing.

- Gallon compartment can hold 40-60 baggies. (Measuring 10.5" to 10.75" as measured across the zipper)
- Quart compartment can hold 60-80 baggies. (Measuring 7.0" to 7.25" as measured across the zipper)
- Freezer baggies or Slider bags are made of a thicker material. The Zip-Organizer may hold 25-30% fewer bags of this type.
- There are a few non-standard sized Quart baggies that measure 8" across the zipper and will not fit our Standard Zip-Organizers, that is why we now offer our New "Slider" Zip-Organizer for those using Plastic "Slider" Baggies. If this is the case with your baggies and you are committed to staying with these baggies, please contact us as we don't want you unhappy with your purchase.
